French Bilingual
Arabic Native
English Fluent
German Beginner

CORE SKILLS

PDM/PLM Systems

- SolidWorks PDM Professional
- 3DEXPERIENCE Platform
- PTC Windchill PLM
- SQL Server Admin & Backups
- Multisite Replication & Cold Storage
- Migrations & Version Upgrades

CAD & Engineering

- SolidWorks Premium & CATIA V5
- PTC Creo Parametric
- Templates & Property Tab Builder
- MyCADTools Suite (audits, batch)
- FEA Analysis (ABAQUS)

Project Management

- Technical Leadership
- Digital Transformation
- ERP-PDM/PLM Integration
- Installation & Operations Documentation
- Administrator & End-User Training
- Knowledge Transfer & Project Handover

CERTIFICATIONS

- ✓ SolidWorks Professional (CSWP)
- ✓ PDM Administration
- ✓ 3DEXPERIENCE Certified

PROFESSIONAL SUMMARY

Mechanical Engineer and Senior PDM/PLM Consultant specializing in product lifecycle management and the digital transformation of engineering departments. Over 80 industrial clients supported in securing, migrating and optimizing their critical technical data — from architecture audit to production go-live. Specialized in SolidWorks PDM, 3DEXPERIENCE, Windchill and multi-system ERP integrations.

80+

INDUSTRIAL CLIENTS

100+

MIGRATIONS & UPGRADES

100+

PROJECTS DELIVERED SINCE 2020

20+

FULL DEPLOYMENTS

PROFESSIONAL EXPERIENCE

● Senior PDM/PLM Consultant

Visiativ • June 2023 – Present

- › Led PDM/PLM implementations for 80+ industrial clients, from requirements analysis to go-live.
- › Designed system architecture and configurations (SolidWorks PDM) with custom workflows.
- › Managed data migration projects and version upgrades of PDM/PLM environments.
- › Implemented multisite replication, SQL Server maintenance plans and backup strategies.
- › Designed and deployed ERP-PDM/PLM integrations to strengthen the digital thread.
- › Trained administrators and end users; ensured knowledge transfer and wrote installation documentation.

● Mechanical Design Engineer

ABMI Group • Sep 2021 – Jun 2023

- › Developed radar systems and precision machined components for IDEMIA.
- › Managed product data lifecycle in a PLM environment; improved traceability.
- › Modernized RATP ticket vending machines (FLOWBIRD); coordinated an engineering team.
- › Performed advanced structural analysis (Creo Simulate) to optimize design weight.

● Design Engineering Specialist

Evolum Container Solutions • Apr 2020 – Oct 2020

- › Analyzed customer needs and costed bespoke container solutions.
- › Produced detailed BOMs and technical documentation using CAD and ERP.
- › Managed supplier relationships and procurement processes.

EDUCATION

● Master's in Mechanical Engineering

UFR MIM, University of Metz • 2018 – 2020

● Engineering Degree – Plastics Engineering

INSA Strasbourg • 2015 – 2018

● Preparatory Classes (PTSI)

Lycée Louis Couffignal • 2013 – 2015

Key Technologies: PLM Implementation, PDM Administration, SolidWorks PDM, CATIA V5, 3DEXPERIENCE, Windchill, SQL Server, Multisite Replication, Digital Transformation, ERP Integration, Data Migration, MyCADTools, CAD Management, Engineering Workflows, Technical Documentation, FEA Analysis, Project Management.
